KERALA'S FIRST INTERNATIONAL MULTI CONFERENCE EXCLUSIVELY FOR ENGINEERING STUDENTS

Organized by: CHRIST COLLEGE OF ENGINEERING, IRINJALAKUDA, TRISSUR, KERALA, INDIA  
13<sup>th</sup>, 14<sup>th</sup> & 15<sup>th</sup> July 2021

## DAY 1

- ◆ Keynote address
- ◆ Panel discussion
- ◆ Tutorial sessions on robotics and web development
- ◆ Expert talks

## DAY 2

### ◆ Multi Conference Sessions

- ◆ International Conference on Emerging Trends in Mechanical and Materials Engineering-2021 (ICEMME-21)
- ◆ International Conference on Recent Trends in Communication and Embedded System Technologies - 2021 (ICREST-21)
- ◆ International Conference on Computing and Informatics - 2021 (ICCI-21)
- ◆ International Conference on Innovations in Civil Engineering (ICICE-21)
- ◆ International Conference on Circuits, Control and Energy - 2021 (ICCCCE-21)

- ◆ Panel discussions on core job placement
- ◆ Cultural Events

## DAY 3

- ◆ Industry @ live
- ◆ Expert talks on abroad studies (live from Germany, U.K., Canada, Singapore)
- ◆ Talk of Christ alumni from abroad
- ◆ Industry expo
- ◆ Project expo competition (for college students & school students)

### ABOUT THE WORKSHOP

The explosive growth of the "Internet of Things" (IoT) is changing our world completely and the rapid drop in price for typical IoT components is allowing people to innovate designs and products at home. IoT involves of a network of smart devices, sensors, and actuators interconnecting with each other over the internet. IoT is also rapidly evolving throughout the embedded industry. In this workshop, a bottom-up approach will be adopted to understand about Embedded Systems and IoT architecture, peripherals, communication protocols, server connectivity based real-time embedded solutions. Hands-on session will be conducted to build solutions to real-world problems with the help of Embedded Systems and IoT.

### KEY BENEFITS OF THIS WORKSHOP

- To introduce students with the basic architecture, and functions of Embedded systems.
- Become aware of importance of Embedded system and IoT in society as a whole.
- Understand basic components and building blocks of Internet of Things.
- Study the technological trends which have led to IoT.
- Apply skills to conduct interfacing of embedded boards with components, actuators and sensors.
- Understand the design trade-offs between hardware and software.
- Enhance the skill sets and confidence for Embedded Startups.

### WORKSHOP HIGHLIGHTS

- ❖ Registration Fees: 1000/-
- ❖ E -Certificate will be provided only for the registered candidates attending all sessions.
- ❖ Certificate of appreciation will be provided to top three performers.

### VISION of the DEPARTMENT

To build a strong teaching and research environment to cater to the manpower needs in Industry and Academic domains of the rapidly growing Electronics and Communication Engineering field.

### MISSION of the DEPARTMENT

- To produce certified industry-ready professional in Electronics and Communication Engineering, through innovative educational programs incorporating laboratory practices and project based teaching-learning processes, in a modern environment.
- To create knowledge base of advanced technologies through research in the area of Electronics and Communication, for competitive and sustainable development of the country.
- To groom the department as a learning centre to inculcate advancement of technology in Electronics and Communication Engineering with social values and environmental awareness.

### 'E-Mobility with IOT'

Electro mobility (or e-Mobility) represents the concept of using electric powertrain technologies, in-vehicle information, and communication technologies and connected infrastructures to enable the electric propulsion of vehicles and fleets. This technology ensures that eco-friendly, quiet and efficient vehicles will be on our roads. There are still certain challenges to be overcome so that the many advantages of the electronic power chain can be leveraged.

Resource persons - Sessions will be handled by Industrial experts, and the Course Material/ Presentations of the session will be emailed to the participants.

#### SESSIONS:

TIME	SESSIONS
9.15 am - 9.30 am	Inauguration
9.30 am - 10.45 am	EV Deployment - Global and Indian Scenarios
11.00 am - 12.15 am	Incremental conductance MPPT with boost converter (Charging Station)
1.15 am - 2.30 am	Communication between two vehicles using IoT
2.45 pm - 4.00 pm	Mobility and IoT for the smart cities

**ABOUT THE DEPARTMENT**

Department of Electrical and Electronics Engineering were started in the year 2002 with an intake of 60 students. The intake is increased to 120 in the year 2007. The program is accredited by NBA in the year 2009 and reaccredited in the years 2016, 2019 and 2022. The department has well established laboratories and signed MoUs with National Instruments and B & R Automation.

**ABOUT THE INSTITUTE**

Karpagam College of Engineering was established in the year 2000 with the vision of providing cutting edge technical education and to create proficient engineers. It is an autonomous institution, approved by AICTE, New Delhi and affiliated to Anna University, Chennai, which offers various Under Graduate and Post Graduate programmes in Engineering. The placement cell takes immense effort in guiding the students for their successful career. The college has active MoUs and Centers of excellence with prominent players in various industries.
