FROM THE HOD'S DESK

Department of civil Engineering at JCTPTC is the heart of all engineering branches. The Department was established in the year 2014. There has been consistent development in all spheres including infrastructure, staff and student strength. The significant infrastructural design, well-equipped laboratories and hi-tech computers with high-speed internet facility with all qualified staff members ensure world-class standard of education delivered from our department.

To produce graduates capable of effectively using the technical knowledge with values for the betterment of society and to meet the dynamic demands of industry and research environment is the aim of our department. Offering Diploma programmers by providing effective well-balanced curriculum to equip themselves to gear up to the challenges awaiting. Providing the technical, research and intellectual resources that will enable the students to have a successful career in the field of civil engineering.

Diploma Graduates will be successful in professional career by acquiring the knowledge in the fundamentals of civil Engineering principles and professional skills. The students are encouraged to engage in life-long learning and professional development by pursuing higher studies and participating in professional organizations.

“Engineering is not only study of 45 subjects but it is moral studies of intellectual life”
